

Interest Free Financing!

Teca-Print is pleased to announce the roll out of our All New **Interest FREE Financing** Lease Program. This is your opportunity to own a new Teca-Print Machine.

Equipment leasing has grown into a popular option for companies that are looking to acquire new equipment without all the up front cost or hassle.

Don't tie up your cash! Unlike a loan with equipment leasing you have no down payment and fixed payments throughout the lease term which works well for budgeting.

Equipment leasing is also considered to be more easily attainable compared to a loan; which usually requires extensive documentation and often requires collateral. Leasing won't deplete your cash reserve or have a negative impact on your balance sheet.

Benefits of Leasing

Convenience

Simpler, more flexible documentation. **100% Interest Free Financing!**

Fixed Lease Payments

Fixed payments enable a lessee to more accurately predict equipment costs and cash needs.

Overcome Budget Limitations

Your budget allows the purchase of only what you absolutely require...not what you really want or think you will need. Leasing can stretch budgetary dollars to acquire the quality and quantity you really want.

Conserve Credit Lines

Leasing does not weaken your borrowing power because money has not been borrowed. Lease and your existing credit line stays healthy and available for the unforeseen.

Tax Benefits

Lease payments are made from pre-tax rather than after-tax earnings. Lease payments may be fully deductible, consult your accountant for details.

For more information about our new **Interest Free Leasing Program** do not hesitate to contact us.

Sincerely,
Customer Service Department
