July 2005

Greetings!

Thank you for taking the time to read Teca-Print's very first newsletter. At Teca-Print we know it is vital to stay in close contact with our customers and thought there would be no better way than through a monthly newsletter. Our goal is to provide you with a resource that will keep you abreast of what is going on in the world of pad printing. We hope you will find it useful.

Open House 2005

For those that attended our Open House in either Boston or Chicago, we would like to say thank you.

We know it is not easy to get away from the office but we are certainly glad you did. It was wonderful to see you all and thanks for making both events a tremendous success.

GUARANTEED!!!

The all NEW TPE 251

The all new E2-Series of pad printing machines are an innovative new development from Teca-Print with an incredibly wide range of uses. This series of pad printing machines possess the ability to deliver high printing pressure for those

Unveiled were the **TPX 301** - a completely servo controlled machine. It was exhibited with four colors and our servo operated linear slide device. The **TPE 151** - this machine is easy to use and offers great flexibility. Great for high speed single or two color production. The **TPX 200** - with its combination drive of servo motors and pneumatics this machine possesses the advantages of both systems. And finally the **TPE 251** - a true work horse, it was shown using a four color process and our smaller VTP 400 linear shuttle system.

If you were hoping to attend the open house but could not we've created a CD containing video highlighting each machine on display. To request a CD of the open house video please send an email to info@tecaprint.com.

We Won't Desert You!

At Teca-Print, quality will always come first. That's why we back all of our pad printing machines with a comprehensive **3 year warranty**.

We warrant to the original customer that each new Teca-Print pad printing machine will be free from manufacturing defects in materials or workmanship during normal service for a period of **three (3) years** from date of purchase. Buy with confidence and peace

larger projects combined with deep horizontal (pad forward) for those hard to reach areas. The **TPE 251** closed ink system and its open ink equivalent, the **TPE 250**, are available in 1, 2, 3 & 4 colors and are ready to accommodate any one of our large selection of peripheral devices.

The E2 Series of machine are the most technically advanced and competitively priced machine of its type on the market today. With its superior build quality and comprehensive warranty, you can be sure that whatever machine you decide to buy, you will have many years of trouble free operation backed by the superior customer support of the Teca-Print staff.
